Conductors of all trains, and enginemen of extra engines, must get clearance orders before using the track between River Station and Los Angeles. Yard engines can work within these limits at all times, without orders, but must protect themselves in both directions.

STANDARD CLOCKS located at LOS ANGELES, RIVER STATION, COLTON, BEAUMONT, INDIO and YUMA.

SPECIAL RULES.

In pulling out of stations, brakemen must watch wheels closely to see that brakes are fully released, and will immediately signal engineers to stop if wheels are found sliding. Engineers must keep a sharp lookout for such signals, as per Rule 278. Each brakeman will be held responsible for any wheels slid flat under the part of the train in his charge. Conductors in reporting flat wheels will give name of the brakeman in charge.

See Rule 84.—All west-bound trains have the absolute right of track over all trains of the same class running in the opposite direction.

All passenger trains will stop at North Beach Bath House, Santa Monica.

Trains Nos. 124 and 126, leaving Santa Monica, will start from regular passenger station on the bluff. Trainmen must use great care in backing up trains to this station.

West-bound trains will, on arrival at commencement of double track on Santa Monica line, take the right-hand track, opening and closing switch. East-bound trains will use the other track.

West-bound trains on Santa Monica branch must come to a full stop at Clement Junction, and not pass onto the San Pedro line until signal is received from brakeman that no train is approaching.
